<b>Office Action Summary</b>	<b>Application No.</b> 10/825,635	<b>Applicant(s)</b> ABHARI ET AL.	
	<b>Examiner</b> Katarzyna Wyrozebski	<b>Art Unit</b> 1796	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### Status

In view of applicant's response to the office action dated 1/4/2008 following office action is rendered final as necessitated by amendment. The applicants arguments are considered but not found persuasive. All rejections of record are incorporated here by reference.

***Claim Rejections - 35 USC § 102***

1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
2. Claims 1, 4, 21, 22, 28, 32, 33-38, 40, 41 and 44 are rejected under 35 U.S.C. 102(b) as being anticipated by BEREN (US 6,143,825).

The discussion of the disclosure of the prior art of BEREN from paragraph 2 of the office action dated 1/4/08 is incorporated here by reference.

***Claim Rejections - 35 USC § 112***

3. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Art Unit: 1796

4. Claims 45-47 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Applicants have added claims that recite the adhesive composition comprising at least 75 wt % functionalization, at least 90 wt % and at least 95 wt % respectively. The examiner was not able to find support for such limitation. The specification of the instant invention only recites up to 50 wt% of functionalization as depicted on pages 32-33 of the instant specification.

***Claim Rejections - 35 USC § 103***

5. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

6. Claims 1-44 are rejected under 35 U.S.C. 103(a) as being unpatentable over BEREN (US 6,143,825) in view of KARANDINOS (US 2002/0070033).

The discussion of the disclosures of BEREN and KARADINIONS from paragraph 6 of the office action dated 1/4/2008 is incorporated here by reference.

Art Unit: 1796

7. Claims 1-44 are rejected under 35 U.S.C. 103(a) as being unpatentable over BEREN (US 6,143,825) in view of WANG (WO 03/033612).

The discussion of the disclosures of BEREN and WANG from paragraph 7 of the office action dated 1/4/2008 is incorporated here by reference.

***Response to the Applicant's arguments dated 4/4/2008***

In their response the applicants argued following:

a) The prior art of BEREN discloses only one component that is grafter so-called third component, wherein third component is not a blend.

With respect to the above argument, the definition of blend in its own most broad limitation is a mixture of polymer and other components. The graft polymer of BEREN is mixed with other polymers and additives and therefore is part of a blend. In addition, applicant's open ended claim language of "comprising" does not exclude other polymers that are not functionalized at al.

b) The prior art of BEREN does not specify branched polymer.

As applicants pointed out correctly in their argument, the branching index of the polymer is 0.98 or less wherein "or less" can also be zero since lower limit has not been defined.

Art Unit: 1796

c) The prior art of KARADINIOS or WANG has been utilized as a combination with the prior art of BEREN to provide for limitation of properties. Examiner's argument has not been traversed.

8. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Katarzyna Wyrozebski whose telephone number is (571) 272-1127. The examiner can normally be reached on Mon-Thurs 8:30 AM-2:30 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, David Wu can be reached on (571) 272-1114. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
